I began working with Thermospas in September 2006 and since have been very excited to be a part of a winning team. Most of my professional career, I have been a manufacturers sales representative and I have learned that although the company pays my salary, it's you the consumer that I truly work for. I take that part seriously and try to do my best to custom design the Thermospas unit that is best suited for you meeting all of your needs. From color schemes to features my job is only successful when you finally sit in it and say "Wow". I grew up in the Pool & Spa industry and my father instilled in me "Only referrals come from satisfied customers". I look forward to your referral.

I am currently available for appointments in Los Angeles, and Orange County.
